

SONOSUB DUAL

SUBMERISBLE TRANSDUCER

With its two frequencies, the Sonosub Dual shines for course cleaning as well as fine and ultra-fine cleaning tasks. Equally convincing: The dual-frequency resonating elements and the seamless laser-welded body.

COMPATIBILITY

- SonoPower 3S Dual and Sonic Digital MG Dual

TECHNOLOGIES, FUNCTIONS, BENEFITS

- Two frequencies
- Smaller design through multi-frequency resonators
- Rectangular, triangular, circular as well as custom shapes possible
- Easy integration through installation on wall or bottom
- Laser-welded body
- Vacuum resistant to 300 mbar absolute with certain designs
